In order to pass Carp Level seven, Participants will be required to do the following.

1. This section is a tutorial that will show you how to make a pole rig for fishing with a bottom bait like expander pellets or maggots.
2. You were shown how to 'Slap' in the last level, now you will learn how to make a shallow rig of your own.
3. To pass this section you will need to mentor a less experienced Junior for three separate sessions.
4. This tutorial will show Juniors how to effectively use a marker float to map out new or unfamiliar venues.
5. Juniors will be shown how to make and use Zig rigs for Carp.
6. Ronnie rigs are extremely popular and effective. In this section you will be shown how to tie your own.
7. Using Chod rigs is essential over ground that has lots of 'rubbish' over the surface. In this section Juniors will learn how and when to make and use them.
8. Gathering information about your chosen venue is just one of the many tools available to the modern angler. Advanced water craft is a skill that is a handy one to have when you're chasing those elusive big Carp.
